Workshop on the Green Stormwater Infrastructure Handbook Details
Pervious Pavement, Infiltration Trenches and Utility Protection and Coordination
Tuesday, April 10, 2018
9:00 A.M. to 3:30 P.M.

Location: Mitchell Park Community Center - El Palo Alto Room
3700 Middlefield Rd., Palo Alto

WHO SHOULD ATTEND: Permittee staff who design, construct, inspect and/or manage projects or review plans for their agency's stormwater or building departments or for other public infrastructure or construction programs.

WORKSHOP WILL INCLUDE: Review of selected details from Part 2 of the draft Green Stormwater Infrastructure (GSI) Handbook with breakout sessions and a panel of utility agency staff. In this 1st of 2 workshops the details, edge conditions and constraints for the following GSI Measures and issues will be covered in two modules (Morning and Afternoon sessions):

1. Pervious Pavement and Infiltration Trenches
2. Utility Protection and Coordination

A second workshop on April 24th will focus on bioretention details in the Handbook.

There will be no charge for the workshop.
