SUBJECT: Information on SCVURPPP List of Qualified Consultants

The Santa Clara Valley Urban Runoff Pollution Prevention Program (SCVURPPP) has updated the list of consulting engineering firms who are qualified to design, review, and/or certify proposed stormwater treatment control Best Management Practices (BMPs) and hydromodification flow control facilities for new and redevelopment projects. The list also indicates whether the firms are qualified and available for conducting third party inspections of installed treatment and flow control BMPs. This list was originally created in September 2006 as a resource for SCVURPPP's permittee agencies. The list is updated periodically.

SCVURPPP distributed a Request for Qualifications (RFQ) for professional Civil Engineers to design, review and/or certify stormwater treatment BMPs and hydromodification control facilities. The RFQ was distributed in June 2024 to consultants currently on the SCVURPPP List and anyone that requested the RFQ.

SCVURPPP staff reviewed all Statements of Qualifications (SOQs) and provided firms with the opportunity to submit further clarification of qualifications provided. If the submittal requirements described in the "Statement of Qualifications" section of the RFQ had been met for a specific activity, a firm was deemed qualified for that activity and was included on the Qualified Consultants List (see page 2). SCVURPPP staff further evaluated the SOQ submittals to determine if the example projects demonstrated experience with design of stormwater treatment BMPs (particularly Low Impact Development treatment BMPs), design of flow control facilities to meet SCVURPPP's hydromodification management requirements, continuous simulation hydrologic modeling (including use of the Bay Area Hydrology Model) and/or inspection of installed BMPs. The results of this evaluation are indicated on the second page of the list. The list of Qualified Consultants is in alphabetical order, without priority or rank, and no endorsement by SCVURPPP is conferred to any particular firm that is on the list.

The list has been provided to SCVURPPP permittee agencies, and electronic copies of the consultant SOQs are available on the SCVURPPP website. Permittees may choose to provide the list to development project applicants, or they may contact consultants on the list directly to assist them with review of project applicant submittals or in design of public projects. Permittee agencies and project applicants will establish their own contractual agreements with those parties on the list to retain consulting services. SCVURPPP does not guarantee that inclusion on the list will result in any actual contract for such work or any financial benefit to a firm for being included on the list. This list does not preclude permittee agencies from hiring firms that are not on this list. The list will be updated approximately every two years and at that time firms will have the opportunity to submit SOQs to be considered for the list or to update their current SOQ submittals.

Santa Clara Valley Urban Runoff Pollution Prevention Program
List of Qualified Consultants to Design, Review, Certify and/or Inspect Stormwater Treatment Best Management Practices
and Hydromodification Management Facilities

The List below contains information on Qualified Consultants who provided Statements of Qualifications (SOQs) containing: 1) proof of staff training on BMP design for managing storm water quality and flow; 2) a statement of understanding of urban storm water management practices, issues, and requirements; 3) a statement of understanding of continuous simulation hydrologic models and analysis of output data; 4) three examples of experience in the design of storm water treatment and flow control BMPs within the past five years, including type of project, size, location, and a detailed description of BMPs used; 5) a statement of the firm’s understanding of on-site third-party inspections of installed stormwater treatment and 6) a statement summarizing overall interest, availability, and commitment of the firm for inclusion on the SCVURPPP list. Table 1 contains contact information for the Qualified Consultants and Table 2 presents a summary of their experience, as presented in the SOQ. Complete SOQs are available on the SCVURPPP website: <https://scvurppp.org/>. Not all firms were qualified for every task. SCVURPPP Co-permittees should refer to Table 2 below to determine if a firm is able to provide the service needed.
