AGENDA

MANAGEMENT COMMITTEE MEETING

May 21, 2026, 9:30 am – 11:30 am

Zoom Meeting¹

- 9:30** **I. Management Committee Meeting Call to Order/Introductions**
- II. Additions or Revisions to Agenda; Announcements**
- III. Approval of Minutes (April 16, 2026 meeting)**
- IV. Review of Action Items from Last Meeting**
- 9:45** **V. Time Open for Public Comment on Any Subject Not on Agenda (2 minutes)**
- 9:50** **VI. Regional Water Board Staff Comments**
- VII. Program Business**
- 10:00** **A. Program Management**
1. **Special Presentation:** City of San Jose’s advertising campaign with the Sharks Sports Team – *information.*
2. **FY 25-26 Annual Report Guidance** – *information.*
- B. Program Budget and Work Plan**
- No items
- 10:30** **C. Program Manager’s Report**
1. BAMS Collaborative Update – *information.*
2. CASQA Update – *information.*
3. Grants Update – *information.*
- VIII. MRP Implementation**
- 10:40** **A. New Development and Redevelopment**
1. Priority Items Identified by Program Staff

¹ Please contact Program staff via email at vatre@eoainc.com if you would like to attend the meeting via Zoom.

- a. Green Stormwater Infrastructure Work Plan Tasks - *status report*
- b. Regional Projects – *status report*

10:45 B. Trash Controls & Unsheltered Homeless

- 1. Priority Items Identified by Program Staff
- 2. Management Committee Requested Items

10:50 C. Monitoring / Pollutants of Concern

- 1. Priority Items Identified by Program Staff
 - a. Monitoring Planning and Implementation Tasks – *status report*
 - b. Regional Projects – *status report*
- 2. Management Committee Requested Items

10:55 D. Outreach Activities

- 1. Priority Items Identified by Program Staff
- 2. Management Committee Requested Items

11:00 E. Other Permit-Related Activities

- 1. Priority Items Identified by Program Staff
 - a. Cost Reporting – *status report*
- 2. Management Committee Requested Items
 - a. Program Information Management Systems – *status report*

11:10 F. MRP Reissuance

- 1. Communications with Water Board staff
- 2. Planned Next Steps

11:25 IX. Other Business

- 1. External Meeting Summaries – *questions on materials provided prior to the meeting.*
- 2. Miscellaneous – *information from MC members.*
- 3. Planned Agenda Items for Future MC Meetings – *update.*

11:30 X. Adjourn

**MANAGEMENT COMMITTEE MEETING
MINUTES**

April 16, 2026

Campbell · Cupertino · Los Altos · Los Altos Hills · Los Gatos · Milpitas · Monte Sereno · Mountain View · Palo Alto
San José · Santa Clara · Saratoga · Sunnyvale · Santa Clara County · Valley Water

I. MANAGEMENT COMMITTEE CALL TO ORDER / INTRODUCTIONS

John Bourgeois (Chair, Valley Water) called the meeting to order at 9:35 a.m. Management Committee (MC) members introduced themselves.

II. ADDITIONS OR REVISIONS TO THE AGENDA; ANNOUNCEMENTS

There were no changes to the agenda. Emma Hinojosa (Sunnyvale) provided an update on the Baykeeper lawsuit against the Cities of Sunnyvale and Mountain View regarding bacteria pollution in Stevens Creek and Calabazas Creek.

III. APPROVAL OF MINUTES

Motion: Colleen Trostle (Santa Clara) moved to approve the minutes of the April 16, 2026 MC meeting. **Second:** Pam Boyle Rodriguez (Palo Alto). **Vote.** Motion passed unanimously.

IV. REVIEW OF ACTION ITEMS FROM LAST MEETING

Action Items from the March 19, 2026 MC meeting:

- Action item 1-26-1 (Invite Melissa Foley (SFEI) to the MC to present information on the Healthy Watersheds and Thriving Cities project.) is in progress. Program staff will contact Melissa to present information at a future MC meeting.
- Action item 1-26-2 (Update the calendar invite for the MC meeting to increase the meeting time to two hours.) is complete. An updated calendar invite was sent on March 19, 2026.

Action Items from previous MC meetings and the November and December 2025 Budget AHTG meetings:

- Action item 2-26-2 (Research how agencies are addressing sanitary waste discharges from RVs and bring a recommendation to the MC regarding implementing a pilot mobile pump-out services program.) is in progress. Program staff are compiling information from SCVURPPP agencies and other out-of-state agencies and will provide recommendations as to how staff can help Co-permittees with this program.
- Action item 1-26-2 (Distribute the FY 2025-26 version of the Cost Reporting Framework (updated with SCVURPPP budgets) is complete. The FY 2025-26 version was sent to the MC on April 15, 2026. The MC requested that Program staff schedule a meeting of the SCVURPPP Cost Reporting Work Group in June.
- Action item 12-25-1 (Share information from CASQA on its dues analysis and budget development.) is in progress. Karen Cowen (Executive Director, CASQA) will be invited to make a presentation at a future MC meeting.
- Action item 12-25-2 (Contact SFEI staff to set up a date for a presentation on the RMP to the MC and the Monitoring AHTG.) is in progress. The presentation will be scheduled in spring/summer 2026.

- Action item 12-25-3 (Provide additional detail on the anticipated scope of the ROWD submittal once this submittal is discussed with Water Board staff.) will be completed after discussion with Water Board staff.
- Action item 12-25-4 (Set up a special MC (and/or C3PO AHTG) meeting to discuss priorities for FY 2025-26 GSI Work Plan tasks.) will be completed as part of the May C3PO AHTG meeting.
- Action item 12-25-5 (Arrange for San José staff to present information on the Sharks outreach campaign at a MC and/or WEO AHTG meeting.) is in progress. San José staff will presentation the information at the May MC meeting.
- Action item 2-25-6 (Discuss the implementation of BMPs for discharges associated with unsheltered homeless populations with other countywide program managers at a future BAMSC Steering Committee meeting) will be brought up at a future Steering Committee meeting.

Action: Program staff will schedule a meeting of the Cost Reporting Work Group in June.

V. TIME OPEN FOR PUBLIC COMMENT ON ANY SUBJECT NOT ON AGENDA

Bryn Evans (Craftwater) informed the MC that the CASQA Funding Subcommittee has formed a Work Group to conduct a stormwater funding needs assessment.

VI. WATER BOARD STAFF COMMENTS

Water Board (WB) staff did not attend the meeting. Chris Sommers (Program staff) provided the following updates:

- Ashraf Ali (WB) is the new contact at the WB for SCVURPPP. Keith Lichten (WB) was promoted to Assistant Executive Officer. Maggie Monahan (WB) was promoted to Keith's former position as Watershed Division Chief. The MC recommended inviting Ashraf Ali, the Water Board staff member assigned to SCVURPPP, to a future MC meeting.
- WB staff sent a letter accepting the FY 25-26 Annual Report format with minor changes to the C.10 form. Annual Reporting forms for all other provisions will be updated with SCVURPPP-specific guidance.
- WB staff submitted comments to individual Co-permittees on their FY 24-25 Annual Reports. They also submitted general comments on Provisions C.10, C.13, and C.17 of the FY 24-25 Annual Reports to all Countywide Program Managers. BAMSC will discuss the C.17 comments with WB staff at its next meeting. Co-permittees should not resubmit the C.17 effectiveness evaluation tables until WB staff provides additional guidance on what is required.

Action: Program staff will invite Ashraf Ali (WB) to a future MC meeting.

Action: Program staff will compile the comments received on individual Co-permittee Annual Reports for MC information.

VII. PROGRAM BUSINESS

A. PROGRAM MANAGEMENT

No items.

B. PROGRAM BUDGET AND WORK PLAN

1. Draft FY 2025-26 (Half-Year) Self Audit Report (SAR)

Chris reported that the Program Memorandum of Agreement and By-Laws require the completion of mid-year and end-of-year Program Manager Self-Audit Reports. The mid-year FY 2025-26 Self-Audit Report, covering the period of July 1, 2025 to December 31, 2025, was sent to the MC for review on April 3, 2026. He requested the MC to consider accepting the mid-year Self-Audit Report.

Motion: Rajani Nair (San José) moved to accept the FY 2025-26 Mid-year Program Manager Self-Audit Report. **Second:** Pam Boyle Rodriguez (Palo Alto). **Vote:** Motion passed unanimously.

2. Action Item: Program Manager's Notice to Proceed (NTP) for FY 2026-27

Chris informed the MC that the Program's Fiscal Agent, the City of Sunnyvale, requires approval of a Notice-to-Proceed from the MC in order to modify the Program Manager's Agreement for FY 2026-27. After the NTP is approved, Carrie Sandahl (Mountain View) will sign the approval letter on behalf of the MC.

Motion: Pam Boyle Rodriguez (Palo Alto) moved to approve the Notice-to-Proceed for the Program Manager Agreement for FY 2026-27, effective July 1, 2026. **Second:** Sheila Tucker (WVSWA). **Vote:** Motion passed unanimously.

C. PROGRAM MANAGER'S REPORT

1. BAMS Collaborative Update

Chris provided the following updates on the MRP 4.0 Work Group meetings:

- Work Groups for the high priority provisions have started meeting. Meetings for moderate priority Work Groups have not been scheduled yet.
- All Work Group meeting invitations will be forwarded to the MC. Any Co-permittee staff can attend the meetings; however, comments should be provided only through the designated Work Group representatives.
- The Work Group meeting dates will be added to the MC calendar and MRP 4 updates will be incorporated into the MC agenda. MC members suggested providing updates toward the end of each MC meeting. If needed, this item could be discussed in closed sessions at future meetings.

Jill Bicknell (Program staff) informed the MC that MRP 4.0 C.3 Work Group met on Tuesday, April 14, 2026. WB staff are preparing the meeting summary.

2. CASQA Update

The next CASQA seminar will be held on Thursday, April 23, 2026, from 10am – 3pm (virtual). The topic is "Rain Ready California: Protecting and Collecting Water for Our Future". Sheila Tucker (WVSWA) asked about local and Bay Area wide implementation of CASQA's Rain Ready Campaign. Vishakha Atre (Program staff) said that an update was provided at the last WEO AHTG meeting and SCVURPPP has started sharing Rain Ready posts on Watershed Watch social media. Chris said that he will discuss Bay Area wide implementation at a future BAMSC Steering Committee meeting.

Action: Program staff will discuss Bay Area wide implementation of the Rain Ready campaign at a future BAMSC Steering Committee meeting.

3. Grants Update

Rajani Nair (San José) and Brian T. Jones (Mountain View) reported that their cities have submitted project proposals for EPA's San Francisco Bay Regional Water Quality Improvement Fund grant.

4. Legislative Update

Not discussed.

VIII. MRP IMPLEMENTATION

A. NEW DEVELOPMENT AND REDEVELOPMENT

Vishakha reported that the C.3 workshops held on April 1, 2026 (virtual) and April 8, 2026 (in-person) were very well attended. Jill reported that a poll has been sent out to schedule the next meeting of the SCVURPPP Long Term GSI Work Group.

B. TRASH CONTROLS AND UNSHELTERED HOMELESS

Chris reported that WB staff are planning to send letters to Permittees that achieved the 100% benchmark after the MRP-required date.

C. MONITORING / POLLUTANTS OF CONCERN

Chris provided the following updates.

- The Integrated Monitoring Report (IMR) and the Final Updated RAA Plan were submitted to the Water Board on March 31, 2026.
- Kevin Hunui (Program staff) sent an email reminding Co-permittees to upload the completed PCBs Screening Assessment Forms and supporting materials to the SCVURPPP website.
- A POC AHTG meeting, specifically related to building demolition, is being planned.

D. OUTREACH ACTIVITIES

The Watershed Watch booth was at two outreach events in April. A "Cleanup and Connect" event is being planned on May 16, 2026 as part of National River Cleanup Day. Program staff received 49 submissions for the Watershed Watch Poster Challenge. Winners will be announced on April 22, 2026.

E. OTHER PERMIT-RELATED ACTIVITIES

The following updates were provided:

- Chris informed the MC that Program staff are working to make the SCVURPPP website and the Watershed Watch website ADA compliant.
- The Municipal Maintenance Workshop will be held on June 2, 2026.

The MC discussed access for the AHTG SharePoint pages and recommended providing access to all Co-permittee staff, upon request.

IX. OTHER BUSINESS

Not discussed.

X. ADJOURN

The MC meeting adjourned at 11:30 am.

**Santa Clara Valley Urban Runoff Pollution Prevention Program
Management Committee Meeting Action Items**

Action Items from the April 2026 MC Meeting

Action	Description	Responsibility	Due Date	Status	Comments
4-26-1	Schedule a meeting for the Cost Reporting Work Group in June	Program staff	June	To be done	
4-26-2	Invite Ashraf Ali (WB staff) to a future MC meeting.	Program staff	May	In progress	
4-26-3	Compile the comments received on individual Co-permittee Annual Reports for MC information.	Program staff	June	To be done	
4-26-4	Discuss Bay Area wide implementation of Rain Ready campaign at a future BAMSC Steering Committee meeting.	Program staff	June/July	To be done	

Action Items Remaining from Previous MC and Budget AHTG Meetings

Action	Description	Responsibility	Due Date	Status	Comments
1-26-1	Invite Melissa Foley (SFEI) to the MC to present information on the Healthy Watersheds and Thriving Cities project.	Program staff	May	Done	The presentation will be made at the June MC meeting.
2-26-2	Research how agencies are addressing sanitary waste discharges from RVs and bring a recommendation to the MC regarding how Program staff can help Co-permittees implement a pilot mobile pump-out services program.	Program staff	April	Done	Memos distributed on 4/22/2026
12-25-1	Share information from CASQA on its dues analysis and budget development.	Program staff	Mid-2026	To be done	Will invite Karen Cowan to make a presentation in summer 2026
12-25-2	Contact SFEI staff to set up a date for a presentation on the RMP to the MC and the Monitoring AHTG.	Program staff	Mid-2026	To be done	Presentation currently being scheduled for summer 2026
12-25-3	Provide additional detail on the anticipated scope of the ROWD submittal once this submittal is discussed with Water Board staff.	Program staff	Fall 2026	To be done	Waiting for input from Regional Water Board staff

Action	Description	Responsibility	Due Date	Status	Comments
12-25-4	Set up a special MC (and/or C3PO AHTG) meeting to discuss priorities for FY 2026-27 GSI Work Plan tasks.	Program staff	May 2026	Done	To be discussed as part of the May 18, 2026 C3PO AHTG meeting
12-25-5	Arrange for San Jose staff to present information on the Sharks outreach campaign at a MC and/or WEO AHTG meeting.	Program staff	Mid-2026	Done	San Jose staff present information at the May MC meeting.
12-25-6	Discuss the implementation of BMPs for unsheltered homeless populations (C.17) with other countywide program managers at BAMSC Steering Committee meeting.	Program staff	Mid-2026	To be done	To be discussed as part of discussion of comments received by WB staff on FY 24/25 Annual Reports.

TO: Management Committee

FROM: Program Staff

DATE: May 15, 2026

SUBJECT: Management Committee (MC) Briefing on Priority Items

Program Management

- * FY 2025-26 Annual Report Guidance - Guidance on preparation of the FY 2025-26 Annual Report has been prepared by Program staff and was emailed to the MC on May 13th. The Annual Report forms have been finalized (with the exception of the C.10 form), and SCVURPPP-specific guidance has been added to the forms. The guidance and forms are available on the MC Share Drive (see the May 13th email for the link to the folder) and on the SCVURPPP members only webpage. The final C.10 form and guidance will be distributed to Co-permittees by the end of May.
- FY 2026-27 Program Manager Notice-to-Proceed – At its April 16th meeting, the MC authorized the notice-to-proceed for the Program Manager for FY 2026-27. The authorization was documented in the MC meeting minutes and provided as direction to the Program Fiscal Agent to execute the contract with the Program Manager.
- Initial Comments on MRP 4 Low Priority Provisions – Program staff and Permittees met with Regional Water Board staff in February to discuss MRP provisions deemed as low priority for revision. Low priority provisions identified by both Permittees and Regional Water Board staff include the following:
 - C.2 – Municipal Operations
 - C.4 – Industrial and Commercial Site Controls
 - C.6 – Construction Site Controls
 - C.7 – Public Information and Outreach
 - C.9 – Pesticides Toxicity Control
 - C.13 – Copper Controls
 - C.22 – Annual Reports
 - C.23 – Modifications to this Order

Note: * indicates that Program staff has identified this item for discussion and/or consideration for approval at the Management Committee meeting.

- C.24 – Standards Provisions
- C.25 – Expiration Date
- C.26 – Rescission of Old Order
- C.27 – Effective Date

BAMSC coordinated a regional meeting among Permittees and Program staff to discuss potential initial comments that should be made to the Regional Water Board on these provisions. As a result of this meeting, a transmittal letter and minor comments on three provisions (C.2, C.4, and C.13) were developed. At its March 19th meeting, the MC approved the submittal of the letter and initial draft comments via BAMSC.

- MRP 4 Reissuance and Workgroups – Regional Water Board and Program/Permittee Workgroup participants began to meet in April 2026. High priority Workgroups include: C.3 (New/Redevelopment), C.8 (Water Quality Monitoring), C.10 (Trash), and C.11/12 (Mercury/PCBs). Moderate priority provisions include those not included as low or high priority. Workgroups for moderate priority provisions will begin meeting in the summer. Although SCVURPPP lead participants on the high and moderate priority Workgroups have been identified, all SCVURPPP Permittees can join the Workgroup meetings if they choose. Dates and times for the Workgroup meetings are included on the MC calendar included with the monthly information packet. Workgroup meeting agendas and materials will be posted on the MC SharePoint portal under the MRP 4.0 section (see link below). Updates on Workgroups and the broader reissuance process will also be provided via this briefing memo and verbally during MC meetings (including closed sessions as needed) until the MRP is reissued in 2027.
- Internal SCVURPPP SharePoint Portals – The [Management Committee \(MC\) SharePoint portal](#) is the primary portal moving forward for MC representatives to access information regarding the MC. There are fifteen (15) additional SharePoint portals that Program staff have completed, creating improved access and management of Program-related information. The MC SharePoint portal is accessible by all MC members.

Legislative/Policy Update

- Second year applicable bills that will continue to be considered by the legislature and new stormwater-related bills are being tracked by both Program staff and CASQA. Additional information on the status of these bills will be provided by Program staff at the MC meeting.

Municipal Operations (C.2)

- Municipal Operations AHTG - There will be an in-person workshop on Tuesday, June 2nd from 9:30am – 1:00pm at the Cypress Pavilion, Lake Cunningham Regional Park, 2305 S White Road, San José . A reminder email to register for the Workshop was sent to the AHTG.

New Development and Redevelopment (C.3)

- Outreach Flyer – At the request of the C3PO AHTG, Program staff developed an outreach flyer on C.3 requirements for parcel-based pavement maintenance projects. Program staff mailed the flyer to asphalt paving companies to inform them about the C.3 thresholds and treatment requirements.
- C3PO AHTG –The next meeting will be held on May 18th. It will include a review of the FY 25-26 GSI Work Plan and an update on the MRP 4 C.3 Work Group topics.

Industrial/Commercial Business Inspection/Illicit Discharge Detection/Elimination (C.4/C.5)

- IND/IDDE AHTG – Program staff updated the following three factsheets to be ADA compliant on the Watershed Watch website: BMPs for Preventing Stormwater Drain Pollution: Fire Restoration, Contractors, BMPs for Preventing Stormwater Drain Pollution: Facilities Prone to Fires and BMPs for Preventing Storm Drain Pollution: Tallow Bins. Program staff are

updating the Spill Cleanup and Outdoor Storage fact sheet to the new SCVURPPP format and will email the updated draft to the AHTG.

- C.15.b.iii Emergency Firefighting Discharges – MRP Provision C.15.b.iii.(3)(a) requires Permittees to begin implementation of the recommendations included in the Regional Report once it is submitted and report on progress in Annual Reports. The BAMSC Firefighting Work Group met on May 4, 2026.

Construction Controls (C.6)

- Construction Inspection AHTG – Program staff are working with a consultant to have the construction BMP fact sheets translated.
- CASQA Construction BMP Handbook Group Subscription List – Program staff compiled an updated CASQA Construction BMP Handbook group subscription list based on requested updates from Co-permittees. Program staff are working on updating the list on the CASQA website.

Watershed Education and Outreach (C.7)

- Watershed Watch Campaign – Watershed Watch will host a Cleanup and Connect Event as part of National River Cleanup Day on Saturday, May 16, 2026 at Gill Memorial Park in Milpitas. A flyer promoting the event was sent to the WEO AHTG for distribution.
- Outreach Events - The Watershed Watch booth was at two events in April, City of Santa Clara's Earth Day and Arbor Day (April 2) and the City of Milpitas's Earth Day Celebration (April 18). A Watershed Watch 50% off car washes event will be held at Pacific Hand Car Wash (San José) from 9 am – 11 am on Thursday, May 28, 2026.
- 2026 Earth Day Poster Challenge – Winners were announced on Earth Day, April 22, 2026 and the winning submissions are posted on the Watershed Watch Website.
- Mercury Risk Reduction – Program staff completed the third round of visits to restock the “Guide to Eating Fish and Shellfish from the San Francisco Bay” brochures at five local fishing supply stores.
- Land Use Subgroup/PSBWF – The Peninsula South Bay Watershed Forum Steering Committee met on February 2nd to discuss possible topics and speakers for the next Forum event in Spring/Summer of 2026. The Steering Committee decided to focus on projects in Coyote Valley and the event is now planned for Monday, June 1, 2026 from 12pm to 1:30pm via Zoom. A “Save the Date” email went out in April and an Eventbrite invitation will be emailed in May to the Forum Google Group email list and other interested individuals.

Monitoring (C.8)

- Low Impact Development (LID) Monitoring – LID monitoring began at two locations in the City of San José (TCM4 and TCM6) in Water Year (WY) 2024 (i.e., October 2023 – September 2024). A summary of the status of LID monitoring during WY 2024 and the initial results were reported to the Water Board in the Urban Creeks Monitoring Report (UCMR) that was submitted on March 31, 2025. A full reporting on the LID Monitoring conducted during WY 2024 and WY 2025 was reported to the Water Board in the Integrated Monitoring Report (IMR) that was submitted on March 31, 2026.

Starting in WY 2026 (October 1, 2025), monitoring will continue at only one location (TCM6). Monitoring equipment was re-installed at TCM6 in September 2025. Five storms have been monitored this water year to date at TCM6, including one event on October 13th, one event on November 13th, one event on February 11th, one event on February 16th, and one event on April 12th. Monitoring is being discontinued at TCM4 because of unresolved issues at that site.

Although the Program anticipates we will successfully collect the MRP minimum required number of samples at this single location, a second location may be required in the future.

Due to needed modifications regarding LID monitoring analytical methods and field sampling protocols, the LID Monitoring Quality Assurance Project Plan (QAPP) was updated in the late spring/summer of 2025 and approved by the MC at their June meeting. Approval has also been given by the other participating stormwater programs in June. The BAMSC Steering Committee approved the QAPP at their August meeting, and the document was submitted to the Regional Water Board in December. The 4th annual LID Monitoring Technical Advisory Group (TAG) meeting was held on May 9th, 2025. The meeting focused on updating the TAG on the outcomes of WY 2025 monitoring, and further review and discussion of the data collected during WY 2024. Following the meeting, the LID Monitoring workgroup chair sent a summary of proposed changes discussed during the TAG meeting to LID Monitoring protocols. The Water Board provided approval of these proposed changes in an email sent June 25th to the Stormwater Program Managers. The changes include reduced levels of effort on QA/QC procedures that, due to outcomes of the first 2 years of monitoring, were deemed no longer necessary. The next LID Monitoring TAG meeting is currently planned for June 24th.

- Trash Monitoring – Trash outfall monitoring for WY 2026 began in November 2025 and was completed in April 2026. Trash nets were deployed at all three sites during three storm events in WY 2026. WY 2027 monitoring will begin in October 2026.

Trash receiving water monitoring began in WY 2025 and samples have been collected at two sites located in Santa Clara County during both WYs 2025 and 2026. WY 2026 monitoring ended in April 2026 and WY 2027 will begin in October 2026.

Trash monitoring is being conducted in coordination with the Trash Technical Advisory Group (TAG), which will next meet on May 27th, to provide input on a number of trash monitoring topics, including results to date for both outfall and receiving water monitoring. TAG meetings occur once per year during the term of MRP 3.0.

- POCs Monitoring – Comprehensive reporting on all POC Monitoring conducted during MRP 3.0 through the end of WY 2025 was reported to the Water Board in the IMR that was submitted on March 31, 2026. Planning and implementation of WY 2026 POCs monitoring is focused on the sites identified in the SCVURPPP Old Industrial Area Control Measure Plan and discussed with the POC AHTG. Two potential stormwater sampling locations were identified for potential monitoring during the WY 2026 rainy season. One of these sites was monitored during a storm event on November 5, 2025. Planning for additional sediment sampling at sites across Santa Clara Valley is currently ongoing. Program staff collected sediment samples on-site at twelve old industrial properties in San José in early June and collected additional public right-of-way sediment samples during the remainder of the month. Program staff collected additional public ROW sediment samples in San José in October and December and will use the results to identify additional locations for on-site sampling.
- Pesticide/Toxicity Monitoring – MRP 3.0 requires that the Program conduct wet weather and dry weather monitoring for pesticides and toxicity. SCVURPPP worked with BAMSC regional partners to successfully accomplish all wet and dry weather pesticides and toxicity monitoring requirements. Wet weather pesticide and toxicity monitoring is now complete for the permit term. All results are currently being reviewed by Program staff and regional partners and will be reported in the Integrated Monitoring Report (IMR), due to the Water Board by March 31, 2026.
- Monitoring AHTG Meetings - The Monitoring AHTG last met on March 4, 2025, to discuss the Draft Water Year 2024 Urban Creeks Monitoring Report (UCMR). The next meeting will be planned for this winter.

Pesticide Outreach (C.9)

- OWOW Program – Program staff have completed the third round of store visits to restock literature racks with fact sheets and update shelf-tags identifying less-toxic products.

Trash Controls (C.10)

- On-land Visual Trash Assessments (OVTAs) – OVTAs for FY 2025-26 began in late September 2025 and will continue through June 2026. Updates on OVTA results are being provided to Co-permittees individually throughout the FY, including the risk of sites no longer demonstrating low trash generation.
- Long-term Trash Reduction Guidance – Program staff continue to complete subtasks as part of the Long-term Trash Reduction Guidance tasks in FY 2025-26, including revisions to baseline trash generation maps, updating ArcGIS Online (AGOL) trash generation maps, trash dashboard updates and maintenance, continued assistance with the private land drainage area (PLDA) trash control program, assistance in siting small (catch basin insert) types of full capture systems, and support for Co-permittees maintaining the MRP mandated 100% trash load reduction benchmark. All Co-permittees demonstrated the achievement of the 100% trash load reduction benchmark in FY 2025-26.
- Private Land Area Drainage Area (PLDA) Inspections – Program staff have identified all PLDAs that need to be inspected by Co-permittees, consistent with the MRP. The inventory is included in the trash dashboard. Co-permittees have provided Program staff with the results of their PLDA inspections, which have been incorporated into the dashboard to assist with calculating trash load reductions.
- Bioretention as Full Trash Capture (FTC) Systems – During FY 2025-26, Program staff will work with Water Board staff to come up with an acceptable method towards ensuring that qualifying bioretention systems are full trash capture systems. The goal of this process is to reach agreement on the criteria that need to be met to count a bioretention system as full trash capture and include these criteria in MRP 4.0.
- Trash AHTG Meetings – The Trash AHTG typically meets on the 3rd Tuesday of the month. The next meeting is scheduled for May 19th.
- Zero Litter Initiative (ZLI) – The ZLI Steering Committee meets approximately monthly via Zoom. The ZLI last met on April 3, 2026. Please send topics for future ZLI meetings to Program staff. The May meeting was canceled. The next meeting of the ZLI is scheduled for Friday, June 5, 2026.

Pollutants of Concern Controls (C.11/C.12)

- PCB/Hg Source Property/Area Identification Studies
 - **Source ID Investigations** - Program staff are continuing to work with individual Co-permittees to plan and implement source investigations during FY 2025-26, consistent with the plans described in the Final-Revised Old Industrial Area Control Measure Plan (OICMP) that was submitted to the Regional Water Board in September 2024. Public right-of-way sediment sampling was conducted in summer/fall 2024 and again in summer/fall 2025. Program staff also completed on-site investigations that included collection of sediment samples on private properties in the Cities of Sunnyvale and San José in June 2024 and June 2025. On-site sediment samples were successfully collected at every property the Program and Co-permittee staff visited during these inspections. In total, these efforts have identified two properties in the City of San José that had sediment samples with moderate PCBs concentrations and two properties in the City of San José that had high PCBs concentrations. Program staff held meetings and are currently planning follow-up meetings with City of San José staff to discuss

next steps for these properties. The chemical analysis results for the samples collected in Water Year (WY) 2024 were reported in the Urban Creeks Monitoring Report (UCMR) that was submitted to the Water Board on March 31, 2025. The chemical analysis results for the samples collected in WY 2025 will be reported in the Integrated Monitoring Report (IMR) that is due to the Water Board on March 31, 2026. Program staff are currently reviewing the analytical data from the Fall sampling and have begun planning for additional private property on-site inspections and sampling for later in FY 2025-26. Program staff will schedule meetings with the applicable Co-permittees to discuss next steps.

- **Source Property Referrals** - Program and City of Palo Alto Staff met with Water Board staff in November 2023 to discuss a potential PCBs source property referral and the proposed enhanced operation and maintenance (O&M) activities. Water Board staff approved the enhanced O&M Plan, and the City of Palo Alto submitted the source property referral to the Water Board in January 2024. Program and City of San José staff met with Water Board staff in April 2024 to discuss six potential source property referrals and proposed enhanced O&M activities. Water Board staff approved the enhanced O&M plans and agreed to accept the six source property referrals. The City of San José submitted these six referrals at the end of June 2024.
- Control Measures Plan for Old Industrial Land Use Areas and Areas with Moderate Levels of PCBs/Mercury - Program staff developed an Old Industrial Area Control Measures Plan (OICMP), consistent with MRP 3.0 Provision C.11/12.c. The Plan was submitted to the Regional Water Board on March 30, 2023. WB staff sent a response letter to all five of the Bay Area Countywide Stormwater Programs on August 25, 2023 indicating the Control Measure Plans did not meet WB expectations. Program staff developed the Draft Revised Plan with review and comments from Co-permittees. The Final Revised Plan was approved by the MC in March. The Final Revised Plan was submitted to the Water Board on March 28, 2024.

Program staff received further comments from WB staff on the Control Measures Plan and presented a proposed strategy to address these comments at the POC AHTG meeting held on August 2nd. Co-permittees agreed with the proposed strategy and Program staff subsequently revised the Plan accordingly. The revised Plan was approved by the MC at their September 19th MC meeting and submitted to WB staff in late September. Water Board staff provided formal acceptance/approval of the revised Plan in a letter submitted to the Program Manager on October 10, 2024. Program Staff are currently implementing the Plan in coordination with Co-permittees.

- Controlling PCBs from Bridges and Overpasses – The Program has been tracking the progress of the Caltrans specification to manage potential PCBs-containing material in bridge roadway expansion joints during bridge/overpass replacement or major repair. A draft Caltrans SOP was sent out in September 2024, for public review and comment. Program staff reviewed the draft SOP and discussed it with regional partners at the BAMSC Steering Committee meeting in September 2024 about providing guidance to Permittees on implementation. Based on the review, BAMSC agreed to develop regional guidance for MRP Permittees on how best to address the MRP requirements. The draft guidance materials were sent to the BAMSC MPC Subcommittee in May for initial review and comment and were subsequently sent out in July 2025 to all Co-permittees for review and comment. At the September BAMSC Monitoring and Pollutants of Concern (MPC) subcommittee meeting, the group agreed that due to extensive comments received from all regional partners, the uncertainty on how and when to implement the guidance, and the continued absence of a Caltrans specification, that a technical working group should be formed. The technical working group will reach out to Caltrans for input and clarity and determine next steps. Program staff reached out to Co-permittees to identify volunteers to participate in the technical working group. To date, staff from two Co-permittees have volunteered, but additional volunteers are still needed. Given the

lack of information on when a Caltrans specification will be available, no current permit requirements to continue the working group, and the looming start of a new permit term with as-yet unknown requirements, the BAMSC MPC decided to pause any further progress on developing guidance and technical working group meetings until a decision on how to proceed has been taken by the BAMSC Steering Committee. In the meantime, Program staff are planning to reach out to Caltrans directly to better understand the options for addressing PCBs during bridge demolitions. At the start of MRP 3.0, Program staff worked with Co-permittees to develop inventories of bridges within each Co-permittee's jurisdiction. The bridge inventories were included as an appendix to the SCVURPPP Annual Report that was submitted to the WB on September 30, 2023. The complete bridge inventory for all Co-permittees is currently available in the POC AHTG shared folder.

- Controlling PCBs from Electrical Utilities – Over the summer of 2023, the Program led a regional workgroup to address requirements for municipal electrical utilities within the MRP area. The workgroup met twice (May 16th and June 8th) to discuss the requirements and develop the necessary products that were due with the 2023 Annual Reports. The Program worked directly with municipal utility staff from Silicon Valley Power (SVP) and the City of Palo Alto Utilities (CPAU) to gather the data required for the SCVURPPP Annual Report. The Program produced a draft SOP for updating spill response and reporting for spills from municipal electrical utility equipment, which was reviewed by municipal utility staff across the Bay Area. The SOP was finalized per comments received and included as an appendix to the SCVURPPP Annual Report that was submitted to the WB on September 30, 2023.

Program staff facilitated a meeting of the BAMSC municipal utilities workgroup on June 4, 2024 to discuss new reporting requirements for the FY 2023-24 Annual Report. Program staff worked directly with municipal utility staff from SVP and CPAU to gather all required reporting data and to develop a summary of their plans to maintain and upgrade OFEE. The data and the plans were submitted with the Program's FY 23-24 Annual Report on September 30, 2024. Program staff continued working with SVP and CPAU in June and July to gather the required reporting data for the Program's FY 24-25 Annual Report that was submitted to the RWB on September 30, 2025.

- Management of PCBs during Building Demolition – With assistance from Program staff, Co-permittees are using the information, tools and guidance provided via the BASMAA regional project to implement a PCBs in Building Demolition Management Program. All required reporting data for FY 24-25 on implementation of this Program was compiled by Program staff and was included in Appendix 11-1 of the SCVURPPP Annual Report that was submitted to the RWB on September 30, 2025. Co-permittees should continue to implement the established PCBs in demolition program in FY 2025-26, consistent with guidance provided by Program staff. In FY 2025-26, Program staff and Co-permittees are participating in a BAMSC project of regional benefit to provide additional guidance on implementation of the PCBs in Building Demolition programs. A work group that was formed to guide the program updates held its first meeting on October 27, 2025 and held an information sharing workshop on April 6, 2025 to discuss Permittee experiences with implementing the PCBs in building demolition program. The work group is comprised of stormwater program and municipal staff from around the Bay Area. Staff from the Cities of Cupertino and Sunnyvale are on the Work Group.
- Mercury and PCBs TMDL Implementation Plan and Reasonable Assurance Analysis (RAA Plan) – Co-permittees are required to submit an updated RAA Plan to the Water Board by March 31, 2026. Program staff developed a work plan for these updates, and the POC AHTG reviewed and approved the workplan in March and April 2025. The updated RAA Plan will entail updated GSI modeling and updated source control implementation to determine when the TMDL wasteload allocations for Santa Clara Valley can be achieved. Program staff began implementing the workplan in April 2025, starting with requests for data from Co-permittees on GSI projects completed and other stormwater controls that have been implemented or planned

during MRP 3. Program staff continued to gather additional information from Co-permittees as needed and prepared a draft RAA Plan, which was sent to the AHTG on January 7, 2026 and discussed at the January 12th POC AHTG meeting. The Final Updated RAA Plan was approved by the MC at their March meeting and submitted to the Water Board on March 31, 2026.

- SF Bay Regional Monitoring Program (RMP) – Program staff serves as stormwater representatives on the RMP’s Steering Committee (SC) and Technical Review Committee (TRC). Program staff participate to ensure, to the extent possible, that information needs and priority projects for the RMP align with monitoring needs and requirements identified in the regional stormwater permit. The TRC just met in March and the Steering Committee last met in December. The TRC will again meet in June and the Steering Committee in August. In addition, Program staff serve as stormwater representatives on various RMP workgroups, including the Sources Pathways and Loadings Work Group (SPLWG), the PCBs Work Group, and the Emerging Contaminants Work Group (ECWG).
- Tracking POC Control Measure Implementation – The Program’s Stormwater Treatment Measures Data Portal is available to the public at <https://scvurppp.org/gsi/>. Additional functionality will be added to the database in FY 2025-26 to align with MRP 3.0 Asset Management requirements.
- Pollutants of Concern AHTG Meetings - The POC AHTG last met on January 12, 2026. The main agenda item was to discuss the TMDL Implementation Plan and Reasonable Assurance Analysis (RAA Plan) draft report, as well as ongoing implementation of C.11/12 controls. The next POC AHTG meeting is scheduled for May 29th.

Water Utility (C.15)

- Water Utility AHTG – No updates.

Unsheltered Homeless Populations (C.17)

- RV Discharges – As discussed at the Unsheltered Homeless Populations AHTG meeting and the MC meeting, Program staff researched how agencies are addressing sanitary waste discharges from RVs and developed two memoranda. The first memorandum summarizes practices being implemented by three SCVURPPP Co-permittees to address RV discharges and includes information from Seattle, Washington and Portland, Oregon. The second memorandum provides an analysis of options for Co-permittee implementation of a mobile RV sanitary discharge pump out program in the Santa Clara Valley and the potential assistance that Program staff could provide to support Co-permittee efforts. Both memoranda were distributed to the MC for review on April 22, 2026 with comments due on May 12, 2026. Minor comments were received from the City of Mountain View.

Cost Reporting (C.20)

- Cost Reporting Work Group - A Cost Reporting Work Group meeting was held on October 28th to discuss the cost report preparation process and lessons learned. Participants provided helpful feedback on the challenges of cost estimating and suggestions for minor modification to the Cost Reporting Framework. This input will be shared with regional partners as part of the BAMSC regional project to update the Bay Area Framework starting in April. The FY 2025-26 version of the Cost Reporting Framework (updated with SCVURPPP budgets) was prepared and distributed to Co-permittees on April 15th. The next SCVURPPP Cost Reporting Work Group will be scheduled for June.

Information/Asset Management (C.21)

- Information Management AHTG – The AHTG meets monthly to assist Co-permittees with development and implementation of Asset Management Plans and to discuss broader information management efforts within SCVURPPP. An Information Management AHTG meeting was held on January 12th. Risk analysis strategy and an approach for management of pervious pavement assets were discussed. Condition assessment trainings for GSI assets were held on December 18th and January 8th. The next meeting is scheduled for June 4th.
- Internal MS SharePoint Pages - Program staff are developing Microsoft SharePoint pages for the Management Committee and each of the AHTGs. The SharePoint pages will provide member agency staff with access to key information, documents, dashboards, and calendars pertinent to each group. The draft SharePoint pages will be shared with each AHTG over the fall/winter 2025/26. Once completed, the SharePoint pages will replace the members-only portion of the SCVURPPP website.
- Information Management Needs Assessment – On behalf of Co-permittees, the Program collects and manages many different types of data, including those associated with water quality monitoring, trash control measures, PCBs source property investigations, Private Land Drainage Areas (PLDAs), On-land Visual Trash Assessments (OVTAs), and Green Stormwater Infrastructure (GSI). These data are collected using a variety of technologies, none of which are currently standardized. Additionally, these data are currently stored in topic-specific data management systems that have been developed over many years using different technologies and platforms. In addition to data collected by the Program, Co-permittees also collect data for MRP compliance. Data are collected using varying approaches and technologies. Conceptually, resources currently used individually by Co-permittees on data collection, storage, management and utilization could be centralized into standardized platforms and technologies that would provide the easier sharing of data amongst Co-permittees and compilation of data at the Program-scale. However, there are clear reasons why data are collected and stored by individual Co-permittees using their own technologies and platforms. To evaluate the evolving information management needs of the Program and Co-permittees and recommend approaches that may improve data standardization, reporting efficiencies, and access to support decision-making, the MC requested that the Program conduct an information management needs assessment. The needs assessment is currently being scoped by Program staff, but will likely include the following tasks:
 1. Needs assessment for Program and Co-permittee information management that will include the following:
 - Assessment and documentation of existing information management systems related to stormwater management that are currently utilized by the Program and Co-permittees.
 - Engagement with Co-permittee and Program staff via on-line surveys and interviews to identify their specific needs, challenges, platforms, and expectations regarding their current systems and a potential centralized system.
 - A review best practices and technologies (including the use of AI features) available and/or used by comparable Programs.
 2. Documenting findings and recommendations in a memorandum, including the review of best practices and technologies, and recommendations on how the Program and Co-permittees should best move forward with addressing identified needs using best practices and technologies in a cost-effective manner. Recommended steps, priorities, tasks, and timelines will be included in the memorandum.

A draft survey was distributed to Co-permittees for review/comment on April 22nd, comments were due on May 4th. Program staff are modifying the survey based on comments received and

plan to distribute to Co-permittees in late May for completion. Once the survey is completed, Program staff will follow up individually with Co-permittees to further discuss information management and help inform recommended steps, priorities, tasks and timelines for FY 2026-27.

- SCVURPPP Website – The SCVURPPP website was updated to address ADA compliance. Consistent with the Program’s Work Plan, the SCVURPPP website (www.scvurppp.org) will be fully updated by the end of the summer. The website will be redesigned and essential information available to the public will be included. A draft/beta version of the website will be shared with the Information Management AHTG in early summer 2026.

Highlights of Bay Area Municipal Stormwater Collaborative (BAMSC) Steering Committee, Subcommittee and Work Group Meetings April - May 2026

Steering Committee – April 29, 2026

Co-Chairs – Sandy Mathews (ACCWP) and Chris Sommers (SCVURPPP)

SCVURPPP representatives – Jill Bicknell, Bonnie de Berry, and Jeff Sinclair (Program staff)

Internal Meeting

- PCBs TMDL Special Studies Project Update – Project implementation of work plans by countywide programs is underway. Programs are continuing to track match contributions. Funding under the grant is being used to supplement PCBs monitoring needed to identify source properties. Additionally, funding is being used to establish one fixed monitoring station over the course of the next three years in each of the four main MRP counties (Alameda, Contra Costa, Santa Clara and San Mateo). The first station is being established in Alameda and will be operational in the fall/winter 2026. The other stations will go on-line in 2027 and 2028. Station locations are being identified in coordination with the RMP and Water Board staff.
- Watching Our Watersheds (WOW) Project
 - Three WOW tasks are nearing completion:
 - *Public Education and Outreach Campaign* – In late 2025, pilot small-scale campaigns were conducted in five area/neighborhoods, once in each County. The final report on outreach has been submitted to EPA. Local outreach events are being planned throughout the four main MRP counties for the summer of 2026.
 - *Source Control Evaluation* – The final report on the impacts of source controls (e.g., pre- and post-ordinance effects on single-use plastic foodware litter) in San Mateo County has been completed and submitted to EPA.
 - *OVRTA Data Analysis* – The data analysis of OVRTAs for frequency, density of sites, and seasonality trends, and a framework for adaptive management in MRP are has been completed and a draft report is being distributed to MRP Permittees for review the week of May 18th. Once comments have been addressed, a revised draft report will be provided to Regional Water Board staff for comment, prior to finalizing and submitting it to EPA.
 - Trash Receiving Water Monitoring – Monitoring at the six regional sites is complete for WY 2026. Methods that will be used to calculate annual loads are being discussed and will be presented to the TAG at their May 2026 meeting.
- FY 25-26 Annual Report Forms – Water Board staff accepted all forms, but requested additions to C.10. The Trash Subcommittee recommended changes to address Water Board

staff concerns. Steering Committee members agreed that the revised form was acceptable and should be sent to Water Board staff as information.

- MRP 4 Reissuance
 - The Steering Committee spent a significant portion of the meeting discussing the status and progress of the MRP 4 Workgroups.
 - High Priority Provisions – The C.3, C.10, C.8, and C.11/12 Work Groups have held their first agenda planning meetings (C.11/12 was scheduled for Friday, May 2nd) and established schedules for the remainder of the year. Schedules are being tracked in a file on the BAMSC Google Drive. Provisions C.11/12 will need to address the TMDL compliance dates that occur mid-way through the MRP 4 term (compliance dates may be extended as part of the MRP 4 Order).
 - Medium Priority Provisions – Provisions C.15 (Firefighting Discharges), C.17, C.20, and C.21 all have required submittals to the Water Board for which comments have not yet been received. Comments need to be provided and discussion before MRP 4 Work Groups for these provisions can begin (see External Meeting notes below).
 - Low Priority Provisions – BAMSC comments on these provisions were submitted to Water Board staff. No more meetings are needed. Provision C.6 was moved to medium priority since Water Board staff plan to make some substantial changes that will need discussion with Permittees.

External Meeting

- Update on Regional Work Groups (these are now part of the External Meeting)
 - Firefighting Discharges Work Group –The Final BMP Report was submitted with the Program’s Annual Report by September 30th. The BAMSC Firefighting Work Group’s annual meeting will be held on May 4, 2026. WB staff will attend and intend to provide an overview of their comments on the BMP Report. An update will be provided to the MC and the BAMSC Steering Committee.
 - Climate Change Adaptation Report (CCAR) Work Group – The Work Group met on May 7th to review the draft CCAR. The WG will provide final comments by May 18th and then the Project Team will revise and distribute the draft CCAR to the Countywide Programs for permittee review and comment.
 - BASMAA Surface Cleaning Program – The Work Group met to review materials and discuss what to update and what to discontinue. They will send their recommendations to BAMSC. The updates will begin next FY.
 - Long-Term GSI Technical Working Group (TWG) –The TWG held its second meeting of FY 2025-26 on March 25, 2026 at the Water Board offices. The focus of the meeting was discussion of two elements of the recommended framework for achieving GSI numeric targets in MRP 4: project types and credits for multiple benefit. The next TWG meeting is scheduled for June 4th and will include discussion of potential credits during different phases of projects,
 - Cost Reporting Work Group – This group will reconvene in May to oversee the project of regional benefit to revise the Bay Area Cost Reporting Framework to allow Bay Area permittees to report costs to the State’s Cost Data Portal in FY 2026-27. Permittees are also interested in meeting with Water Board staff to receive feedback on the cost reports submitted for FY 24-25 and any changes needed to the Framework or Guidance but that meeting has not yet been scheduled.
 - Trees in GSI Work Group – This Work Group meets twice per year via Zoom. The group met on December 17, 2025, and reviewed and discussed examples of Bay Area municipal

urban forest plans (including recently adopted plans from San Jose, Oakland and the City of Alameda) for policies, actions and strategies related to trees in GSI. The next meeting of the Work Group is TBD.

- **Regional Water Board Collaboration** (Rebecca Nordenholt and other staff)
 - **MRP 4 Work Groups** – WB staff reported out on the C.3, C.8, and C.10 Work Group initial meetings. For Medium Priority Provisions, it was agreed that WB feedback on submittals should occur in advance of Work Group meetings. For general feedback to all permittees, Program Managers (at a minimum) and other permittees should be present at the meetings. The schedule for these feedback meeting is uncertain as some of the submittals are still being reviewed.
 - **Long Term GSI Technical Working Group (TWG)** – Rebecca indicated that WB staff are meeting internally on May 4th to discuss their response to BAMSC proposals for crediting different project types and multiple benefits. They will provide feedback via an email or memo soon.
 - **EPA Inspection Targets** – Rebecca reported that WB staff have been conducting various types of inspections in order to meet a target of inspecting 10% of permittees in the SF Bay Region during this fiscal year. They are close to meeting the target. Inspection results have been posted to SMARTS.
 - **Comments on Section C.17 of FY 24-25 Annual Reports** – BAMSC members had expressed concerns about the general comment that permittees needed to provide more information and resubmit a description of BMPs implemented to address discharges from unsheltered homeless populations. Rebecca stated that they are pausing this request for now, and they will meet internally in June to reassess the need and report back to the Program Managers.
 - **WB Meetings** – Rebecca reminded the Steering Committee that the May WB meeting will be a field visit to GSI facilities in Misson Bay (SF). WB members are interested in better understanding the types, benefits, and challenges of these infrastructure projects. The SF site was selected due to proximity to the WB offices and Board member locations. The agenda for this meeting will be posted on April 30th. A PCBs TMDL update will be provided at the WB's June meeting. BAMSC is coordinating a presentation via the MPC for that item.

Next Meeting – May 28, 2026 (internal); June 5, 2026 (external)

PIP Subcommittee

Chair – TBD

SCVURPPP representative – Vishakha Atre (SCVURPPP)

Next Meeting – TBD

Development Subcommittee (DS) – April 14, 2026

Co-Chairs – Dan Sternkopf (SMCWPPP) and Daniel Matlock (City of Fremont)

SCVURPPP representatives – Sandra Freitas (City of San José), Jeff Sinclair, Peter Schultze-Allen and Jill Bicknell (SCVURPPP)

Internal Meeting

- The Subcommittee received updates on MRP 4 negotiations/work groups and other development-related regional work group activities. The Subcommittee discussed maintenance practices for pervious pavement.

External Meeting

- The Subcommittee received updates on development-related regional work group activities. Water Board staff provided information on the upcoming “Field Meeting” of the Water Board on May 13th where staff, the public and board members will tour GSI and LID sites in the Mission Bay neighborhood of San Francisco. Proposed topics for June and August include a presentation on Biotreatment Soil Media specifications and biotreatment sod as a vegetation choice.

Next Meeting – June 9, 2026 (meets bimonthly)

Trash Subcommittee – No April Meeting

Chair – Ben Livsey (City of Oakland); *Vice Chair* – Chris Sommers (SCVURPPP)

SCVURPPP representatives – Brad Hunt (Palo Alto), Tiffany Ngo (San Jose), Emma Hinojosa (Sunnyvale), and John Fusco and Chris Sommers (SCVURPPP).

Next Meeting – The Trash Subcommittee has been paused to allow the MRP 4 Trash Workgroup to meet and discuss requirements for MRP 4 provision C.10. The Subcommittee will likely be restarted after the adoption of MRP 4.

Monitoring/POCs Subcommittee – May 6, 2026

Chair – Kelly OHara (CCCWP); *Vice Chair* – Lisa Austin (ACCWP)

SCVURPPP representatives – Chris Sommers and Lisa Sabin (SCVURPPP), Joe Schwennesen (San Jose), and James Downing (Valley Water)

Internal Meeting:

- Attendees discussed ongoing regional coordination and planning efforts related to the MRP, including the following topics:
 - Updates on the status of the MRP 4.0 C.8 Workgroup (WG), including updates from the BAMSC leads (Bonnie de Berry and Kelly Ohara) on their planning meeting with Water Board staff. Attendees discussed LID monitoring which is the main topic for the first WG meeting, which was held on May 6 during the timeslot for the External MPC meeting. The External MPC meeting has been temporarily paused until these meetings are concluded, likely after September. The next internal C.8 WG meeting will be held at the bi-monthly RMC meeting on June 3 from 9:30-11 am.
 - Updates on the status of the MRP 4.0 C.11/12 WG, including updates from the BAMSC leads (Lisa Austin and Lisa Sabin) on their planning meeting with Water Board staff, and the outcomes of the first WG meeting, which was held on May 1, 2026 from 1 pm – 3pm. The next C.11/12 WG meeting is scheduled for June 2, 2026 from 1pm – 3 pm. Lisa Sabin will reach out to WG members via email to select a date for an internal meeting prior to June 2nd. An internal WG meeting is already planned for June 3 from 11 am to 12:30 pm.
 - Coordinated C.11/12 reporting for Annual Reports that are due to the Water Board on September 30, 2026, including the Source Control Load Reduction Accounting report and the PCBs in Building Demolition Effectiveness Evaluation report. Both reports will be finalized for approval by the BAMSC SC in August.
 - Updates on the status of C.8 monitoring, including trash and LID monitoring.
 - Updates on the current status of the PCBs TMDL Special Studies Grant Project.
 - Update on status of projects of regional benefit, including:

- Manage PCBs-Containing Materials and Wastes During Building Demolition – Effectiveness Evaluation; a draft report will be sent out for Permittee later in May.
- Manage PCBs-Containing Materials and Wastes During Building Demolition – Program and Guidance Updates; overview of the working session held on April 6th, discussion of planning for next meeting.
- Source Control Load Reduction Accounting for RAA Updates – The draft report sent out for review in April will be updated per the comments received; the appendices to the report will be ready and sent out with the draft report for review in mid-May.
- Update from Bonnie de Berry on the RMP's Emerging Contaminants WG annual meeting that was held in April.

Next Meeting – July 1, 2026 (meets bimonthly)

**Scheduled Meetings and Deliverables
May - July 2026**

May 2026

1	MRP 4.0 C.11/12 (Mercury and PCBs) Workgroup 1:00 pm – 3:00 pm	Zoom Meeting
6	BAMSC Monitoring and Pollutants of Concern (MPC) Subcommittee (Internal Portion Only) 10:00 am – 2:30 pm MRP 4.0 C.8 (Monitoring) Workgroup 1:30 pm – 3:30 pm	MS Teams Meeting MS Teams Meeting
18	BAMSC Internal MRP 4.0 C.3 Workgroup 10:00 am – 11:30 am SCVURPPP C3PO AHTG 1:30 pm – 3:00 pm	Zoom Meeting
19	SCVURPPP Trash AHTG 1:00 pm – 3:00 pm	Zoom Meeting
21	SCVURPPP Management Committee 9:30 am – 11:30 am MRP 4.0 C.3 Workgroup 1:30 pm – 3:30 pm	Zoom Meeting MS Teams Meeting
26	MRP 4.0 C.10 (Trash) Workgroup 2:00 – 4:00 pm	MS Teams
27	SF Bay Area Trash Monitoring Technical Advisory Group (TAG) 1:00 – 3:00 pm	Zoom Meeting
28	BAMSC Steering Committee (Internal) 9:30 am – 12:00 pm	MS Teams Meeting
29	SCVURPPP POC AHTG 10:00 am – 12:00 pm	Zoom Meeting

Scheduled Meetings and Deliverables
May - July 2026

June 2026

1	Peninsula South Bay Watershed Forum (and WMI Land Use Subgroup) Event 12:00 pm – 1:30 pm	Zoom Meeting
2	MRP 4.0 C.11/12 (Mercury and PCBs) Workgroup 1:00 pm – 3:00 pm SCVURPPP Muni Ops Workshop 9:30am – 1:00pm	MS Teams Meeting Cypress Pavilion, Lake Cunningham Regional Park, 2305 S White Road, San Jose
3	BAMSC Internal MRP 4.0 C.8 Workgroup 9:30 am – 11:00 am BAMSC Internal MRP 4.0 C.11/12 Workgroup 11:00 am – 12:30 pm MRP 4.0 C.8 (Monitoring) Workgroup 1:30 pm – 3:30 pm	MS Teams Meeting MS Teams Meeting MS Teams Meeting
4	SCVURPPP Information Management AHTG 10:00 am – 11:30 am	MS Teams Meeting
